**PASSED BY:**

3. To complete the following, use the charts provided (on pages 7–8).
  - a. Family Record Sheet for one of your parents or any of your ancestors (If doing this for a parent, list your parent and all his/her siblings in the boxes labeled “Children” and enter the information about their parents in the spaces labeled “Husband” and “Wife.”)
  - b. Generation Pedigree Chart for yourself with three or four generations. Fill in the date and place for each event listed on the chart.
  - c. List sources used for the above and what information was obtained from each.

## Grandparents

### Third Generation

## Great-grandparents

## Fourth Generation

The diagram is a complex genealogical chart showing multiple generations of a family. It is organized into several columns and rows, with names and dates alternating in shading. The chart shows a family tree with multiple branches, including names like John, Mary, and various children and grandchildren.
