

WOODWORKING

All Levels

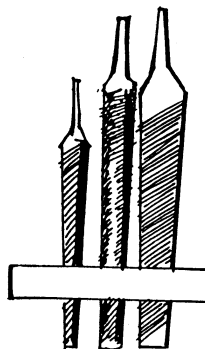

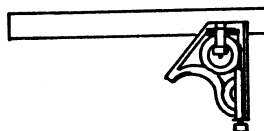

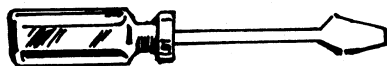

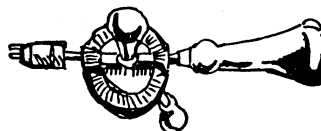

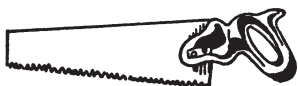

Purpose

To help you learn the basic tools and skills used in woodworking and thus begin discovering and developing your God-given abilities in this area

Exploring

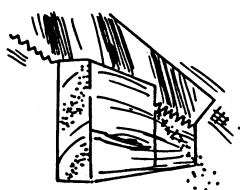

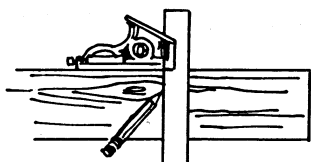

1. There are two basic types of wood: hardwood and softwood. List five examples of each in your project book quoting advantage for each one listed.
2. Identify each of the following **woodworking tools**.

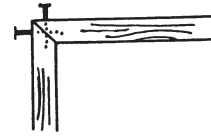

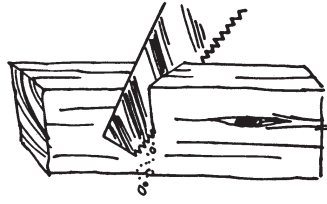

Demonstrate to your Counsellor that you know the proper use of each tool.

Doing

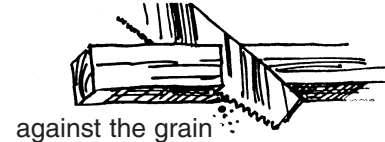

1. Demonstrate that you can make a **square corner** by one of the following methods.
 - a. Cutting a single piece of wood.

- b. Mitering two pieces of wood together using nails or screws and glue.

2. Demonstrate that you can saw a piece of wood **with** the grain, and, **against** the grain.

3. Build two **woodworking projects** taken from the Cadets Woodworking Project Manual (available from your Supply Centre) or other projects passed by your Head Counsellor as being suitable.

Each project must include the following steps.

- Measuring
- Cutting
- Sanding
- Constructing
- Finishing

4. Replace all tools to their proper place

Ask your Counsellor to sign below and arrange for the presentation of your badge.
