Viva Network is a global movement of Christians passionately concerned for 'children at risk', committed to every child having the opportunity to become all that God intends.

Rather than starting more children's projects, Viva Network creates and sustains networks among people already working with 'children at risk', so that more children get better help.

The World Wide Day of Prayer for Children at Risk takes place on the first Saturday of June each year, and an information pack is produced to accompany it. All Christians are invited to participate.
